OFFICE OF
PREVENTION, PESTICIDES
AND TOXIC SUBSTANCES

John Wiegand
Vice President, Research and Development
Canberra Corporation
3610 Holland-Sylvania Rd.
Toledo, OH 43615

Subject: Product Name: Super Husky Toilet Bowl Cleaner
EPA Registration No.: 8155-03
Application Date: June 11, 2008
Receipt Date: June 24, 2008

Dear Mr. Wiegand,

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

Proposed Amendment

- Label Amendment

Labeling Comments

1. Revise the statement "Destroys many bacteria *such as...*" to read "Kills the following germs..." or similar wording wherever it appears on the label.
2. The statement "destroys many bacteria" is too broad. All organisms must be identified as those supported by efficacy data.
3. The EPA encourages registrants to include a company telephone number or toll-free hotline number for emergency information in the first aid section of each label. If a number is to be included it should be accompanied by a phrase or statement indicating the kinds of information the number should be used for and the hours of service. For example: *Have the product container or label with you when calling a poison control center or doctor or going for treatment. For emergency information on [product, usage, etc.], call [1-XXX-XXX-XXXX] Monday through Friday Xam to Xpm. After Xpm call your poison control center at 1-800-222-1222."*

CONCURRENCES

SYMBOL	7510 P							
SURNAME	Graham							
DATE	7/17/08							

If you do not have your own number, you may use the **National Pesticides Information Center (NPIC) 800 number**. If you choose to use this number, the section should read as follows:

"Have the product container or label with you when calling a poison control center, doctor, or going for treatment. For emergency information concerning this product, call the national Pesticides Information Center (NPIC) at 1-800-858-7378 seven days a week, 6:30am to 4:30pm Pacific Time. (NPIC website: www.npic.orst.edu)

Please note the Agency prefers the hotline/emergency information be placed below the first aid statement.

General Comments

Submit three copies of the final printed label including the above revisions. A copy of the label will be stamped and returned to you.

The Agency is moving away from a review of paper submitted registration applications toward electronically submitted applications. We need your help to make this an efficient and convenient process for both you and the Antimicrobials Division. Accordingly, we are asking you to submit future labeling amendments for this product via our electronic labeling process. Refer to the following website for guidance on electronic submissions, including labeling and label amendments:

http://www.epa.gov/oppfead1/esr_guidance.htm#overallsub. If you have questions concerning electronic labeling, a list of contacts is available at the following site: <http://www.epa.gov/oppfead1/eds/edsgoals.htm#contacts>.

Should you have any questions or comments concerning this letter, please contact me by telephone at (703) 308-6422 or email at heyward.adam@epa.gov between the hours of 7:00am and 4:00pm EST. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Adam Heyward
Product Manager (34)
Regulatory Management Branch II
Antimicrobials Division (7510P)

KEEP OUT OF REACH OF CHILDREN

DANGER: POISON ☠ (In Red Ink Only)

See first aid and additional precautionary statements on reverse side. (Per Agency email)

Net Contents: One Quart (32 Fl. Oz.) 946ml

BACK PANEL

Quickly eliminates rust, lime and uric acid deposits. Eliminates offensive odors. (Antibacterial formula.) For use inside toilet bowls (and urinals). Use to clean and disinfect toilet bowls (and urinals). Do not use on sinks, bathtubs, or other porcelain enameled surfaces. Use of this toilet bowl cleaner on other than vitreous ware is done at user's risk.

Destroys many bacteria such as Pseudomonas aeruginosa, Staphylococcus aureus and Salmonella choleraesuis. Will not harm bacteria action of septic tanks. Recommended for use in commercial and industrial buildings, schools, (medical) institutions, manufacturing plants, (homes,) public restrooms, hotels and motels.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its' labeling.

TO CLEAN TOILET BOWLS AND URINALS

Pour 1 to 2 ounces of bowl cleaner on applicator. Clean entire unit, especially under rim at water outlets.

TO DISINFECT TOILET BOWLS AND URINALS

A preliminary cleaning is required for the removal of gross filth prior to disinfection.

1. Remove water from bowl (or urinal) by forcing over trap with applicator
2. Remove excess water from applicator by pressing it against the side of bowl.
3. Holding applicator over bowl (or urinal), pour 1 ounce of toilet bowl cleaner on applicator.
4. Clean entire unit, especially under the rim at water outlets. Allow to remain 10 minutes.
5. Flush and rinse out applicator.

Do not use on sinks, bathtubs, or other porcelain enameled surfaces. Use of this toilet bowl cleaner on other than vitreous ware is done at user's risk.

Effective against HIV-1(AIDS VIRUS) Product was evaluated and found to be an effective virucide in the presence of 5% serum against the Virus HIV-1(Human Immunodeficiency Virus 1, commonly referred to as AIDS Virus) on inanimate surfaces. **Kills HIV** on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care

Note to Reveiwer - Copy in parentheses is optional marketing information.

4/4
settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1(HIV-1)(associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV ON

SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS. Personal Protection: Disposable latex gloves, gowns masks and splash resistant goggles must be worn when handling items soiled with blood or body fluids.

Cleaning Procedures: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. **Contact Time:** Leave surface wet for 10 minutes. **Disposal of Infectious Materials:** Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye and skin damage. May be fatal if swallowed. Do not breathe vapor or fumes. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Use with adequate ventilation.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL AND CHEMICAL HAZARDS: Never use with chlorine products. Can react to give chlorine gas. If this occurs, flush toilet to remove chemicals and leave area. Do not return for half an hour. Ventilate if possible. Never use or mix with other cleaners or chemicals. Do not use on any surface that can be damaged by acidic materials. Many surfaces are not resistant to acid. **Do not use on PVD finished surfaces.**

FOR CONTAINERS 1 GALLON or LESS:

STORAGE AND DISPOSAL: Store in an area inaccessible to children. Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Otherwise, wrap empty container in plastic bag and discard in trash.

(Other ingredients include: Detergents, emulsifying and wetting agents and essential oils.)

EPA Reg. No. 8155-3

EPA Est. 8155-OH-1

(For Industrial and Institutional Use Only) LOT CODE Designating Batch

FOR CONTAINERS OVER 1 GALLON:

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal. Store in an area inaccessible to children.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray, or mixture of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label directions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container (or equivalent) promptly after emptying. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or if allowed by state and local authorities, burn. If burned, stay out of smoke.

FOR CONTAINERS OVER 5 GALLONS:

ENVIRONMENTAL HAZARD

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System(NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
